— THE ACG STYLE FORMULA™ —

PEAR SHAPE QUICK GUIDE

*Simple styling cues behind every
formula in this guide.*

1.

DEFINE THE WAIST

Choose wrap, belted, fit-and-flare, and A-line dresses that highlight your naturally defined waist while allowing comfortable room through the hips.

2.

DRAW THE EYE UP

Square, scoop, boat, off-the-shoulder, and one-shoulder necklines help bring attention upward and create visual balance.

3.

LET THE SKIRT SKIM

Look for A-line, wrap, and softly flared skirts that skim over the hips and thighs instead of clinging too tightly.

4.

CREATE BALANCE

Use sleeves, layers, jewelry, and upper-body details to add interest on top while keeping the silhouette soft and balanced.

HOW TO USE THE FORMULAS

Start with the occasion. Recreate the formula exactly or swap similar pieces from your closet while keeping the same dress shape, neckline, and styling direction.
